

DM1005 Digital Marketing Essentials

Study Guide for Final Examination

This study guide is designed to help students prepare for the **DM1005 Digital Marketing Essentials Final Examination**. Students should focus on understanding concepts, applying knowledge to business scenarios, and explaining their answers with relevant examples.

Learning Unit 1: Fundamentals of Digital Marketing

Study Topics

Students should be able to:

1.1 Define Digital Marketing

- Definition of digital marketing
- Objectives of digital marketing
- Importance of digital marketing
- Differences between traditional marketing and digital marketing

1.2 Digital Marketing Channels

Understand the purpose and examples of:

- Search Engine Optimization (SEO)
- Search Engine Marketing (SEM)
- Social Media Marketing
- Email Marketing
- Content Marketing
- Display Advertising
- Influencer Marketing
- Affiliate Marketing

1.3 Benefits of Digital Marketing

Explain how digital marketing helps businesses:

- Increase brand awareness
- Reach global audiences
- Target specific customers
- Measure campaign performance
- Reduce marketing costs

- Improve customer engagement

Students should be able to:

- ✓ Define digital marketing.
- ✓ Explain three advantages of digital marketing.
- ✓ Identify different digital marketing channels.
- ✓ Recommend suitable channels for different businesses.

Learning Unit 2: Search Engine Optimization (SEO)

Study Topics

2.1 What is SEO?

Understand:

- Definition
- Purpose
- Importance

2.2 How Search Engines Work

Students should understand:

- Crawling
- Indexing
- Ranking

2.3 Types of SEO

Differentiate between:

On-Page SEO

Examples:

- Page title
- Meta description
- Headings
- Keywords
- Internal links
- Image optimization

Off-Page SEO

Examples:

- Backlinks
- Guest blogging
- Social sharing
- Online reviews

2.4 Good SEO Practices

Know the importance of:

- High-quality content
- Mobile-friendly websites
- Fast page speed
- Relevant keywords
- User experience

Students should be able to:

- ✓ Explain SEO.
- ✓ Differentiate On-Page and Off-Page SEO.
- ✓ Explain crawling, indexing and ranking.
- ✓ Recommend SEO improvements.

Learning Unit 3: Email Marketing

Study Topics

3.1 Introduction

- Definition
- Purpose
- Benefits

3.2 Types of Email Campaigns

Study the following:

- Welcome Email
- Newsletter
- Promotional Email

- Transactional Email
- Re-engagement Email
- Drip Campaign

3.3 Building an Email List

Understand:

- Permission marketing
- Opt-in forms
- Lead magnets
- Ethical data collection

3.4 Email Marketing Metrics

Know the meaning of:

- Open Rate
- Click-Through Rate (CTR)
- Conversion Rate
- Bounce Rate
- Unsubscribe Rate

Students should be able to:

- ✓ Explain why businesses use email marketing.
- ✓ Compare different email campaign types.
- ✓ Design a simple email marketing strategy.
- ✓ Identify suitable performance metrics.

Learning Unit 4: Content Marketing

Study Topics

4.1 Introduction to Content Marketing

Understand:

- Definition
- Goals
- Benefits
- Audience-first approach

4.2 Types of Content

Know the purpose of:

- Blog Posts
- Videos
- Infographics
- Podcasts
- Newsletters
- Case Studies
- Social Media Posts
- E-books

4.3 Content Creation

Study:

- Finding content ideas
- Audience needs
- Customer pain points
- Competitor analysis
- Keyword research
- High-quality content principles

4.4 Content Repurposing

Understand how one content piece can become:

- Blog
- Video
- Infographic
- Podcast
- Social media posts
- Newsletter

4.5 Content Distribution

Understand:

Owned Media

- Website
- Blog
- Email

Earned Media

- Shares
- Reviews

- PR

Paid Media

- Facebook Ads
- Google Ads
- Sponsored Posts

Students should be able to:

- ✓ Develop a simple content marketing strategy.
- ✓ Choose appropriate content formats.
- ✓ Explain content distribution.
- ✓ Explain content repurposing.

Learning Unit 5: Digital Marketing Metrics

Study Topics

Key Performance Indicators (KPIs)

Understand:

- Reach
- Impressions
- Engagement
- Clicks
- Click-Through Rate (CTR)
- Conversion Rate
- Bounce Rate
- Open Rate

CTR Formula

Students must know:

$$\text{CTR} = \frac{\text{Clicks}}{\text{Reach}} \times 100$$

Example:

Reach = 20,000

Clicks = 800

CTR =

$800 \div 20,000 \times 100$

CTR = **4%**

Campaign Analysis

Students should be able to:

Interpret campaign data.

Recommend improvements.

Identify weak metrics.

Suggest optimization strategies.

Scenario-Based Questions

Students should practise answering business scenarios.

Examples include:

Scenario 1

A new sports apparel company wants to increase brand awareness.

Students should identify:

- Target audience
- Suitable marketing channels
- Content formats
- Distribution strategies

Scenario 2

A café wants to promote a healthy breakfast blog.

Students should recommend:

- Owned Media
- Earned Media
- Paid Media

Scenario 3

A private school wants to promote a Diploma programme.

Students should prepare:

- Email marketing strategy
- Target audience
- Email type
- Call-to-action
- Performance metrics

Scenario 4

Analyse campaign metrics.

Students should:

- Calculate CTR.
- Interpret the results.
- Recommend improvements.

Revision Checklist

Students should ensure they can:

- ☐ Define digital marketing.
- ☐ Explain the benefits of digital marketing.
- ☐ Identify digital marketing channels.
- ☐ Explain SEO and its importance.
- ☐ Differentiate On-Page and Off-Page SEO.
- ☐ Explain crawling, indexing and ranking.
- ☐ Describe different email marketing campaigns.
- ☐ Explain ethical email marketing practices.
- ☐ Develop a content marketing strategy.
- ☐ Identify different content formats.
- ☐ Explain content creation and content repurposing.
- ☐ Differentiate Owned, Earned and Paid Media.
- ☐ Explain content distribution strategies.

- ☐ Define KPIs and digital marketing metrics.
- ☐ Calculate Click-Through Rate (CTR).
- ☐ Interpret campaign performance.
- ☐ Recommend improvements to digital marketing campaigns.

Examination Tips

- Read each question carefully and identify the command words (e.g., define, explain, compare, evaluate, recommend).
- Support your answers with relevant digital marketing concepts and examples.
- For scenario-based questions, apply your knowledge to the business context rather than giving generic definitions.
- Show all calculations clearly for questions involving digital marketing metrics.
- Structure longer answers logically using headings or bullet points where appropriate.
- Manage your time by allocating approximately:
 - **20 minutes** for Section A (Multiple Choice)
 - **35 minutes** for Section B (Short-Answer Questions)
 - **65 minutes** for Section C (Scenario-Based Questions)

By mastering these topics and practising the application of concepts to real-world situations, students will be well prepared for the final examination.
